# 2023 Summer Online Journalism Program

## News Media: Business and Emerging Technology

### Program dates:

Jul. 27 to Aug. 14, 2023

### Program fee:

USD480 per person, includes:

- Online courses
- Media project coaching
- Learning Management System Moodle Registration and usage
- NC State Global Training Initiative Certificate
- Transcript

## Learning Objectives

- Knowledge and understanding of the business practices of news media organizations in the United States, including the relationship between advertising and news content.
- Understanding of technological advancements in American news media, and its effect on the journalism process.
- Recognize American social media platforms' impact on news production and the audience.
- Apply knowledge to conduct a case study analysis of American news media content.

## Case Study Project

- Students will complete a case analysis study of an American news organization based on the principles learned in the course. The students will choose from five major American news organizations (New York Times, Wall Street Journal, CNN, NBC, ABC) to analyze.
- Work out a media plan for a specific company/organization
